

AMERICAN TELEMEDICINE ASSOCIATION: 2014 FALL FORUM

JORDANA BERNARD

The American Telemedicine Association (ATA) will host its annual Fall Forum in Palm Desert, Calif., Sept. 6-9, 2014. In addition to two full days of programs related to managing and improving chronic conditions, ATA will host a full-day American-Chinese Telemedicine Forum on Sunday, Sept. 7, 2014. The forum, co-sponsored by the American International Telemedicine Council, will deliver the tools and information that are essential to building a successful telemedicine business abroad. Attendees will learn about the existing clinical and business landscape of telemedicine in China, and how to establish key partnerships to help their respective health system, or business, grow in the international market.

Over fifty telemedicine, telehealth and mHealth product and service providers will showcase their innovations in the Fall Forum exhibit hall.

Detailed program information--including courses, sessions and Continuing Medical Education (CME) information--will be available at: <http://www.americantelemed.org/2014-ata-fall-forum/conference-overview#U7CqfE1OWUk>

The American Telemedicine Association is the leading international resource and advocate promoting the use of advanced remote medical technologies. ATA and its diverse membership, works to fully integrate telemedicine into transformed healthcare systems to improve quality, equity and affordability of healthcare throughout the world. Established in 1993, ATA is headquartered in Washington, DC. For more information visit: www.americantelemed.org.
